WELCOME!

Hi, my name is [Linda Hamilton](#). I'm a **Personal** and **Professional Life Coach**.

[Take this simple quiz to see if personal coaching could dramatically improve your life... Click Here](#)

I work with **Entrepreneurs, Professionals** and **Executives** who want to:

- make a difference in the world
- have a fulfilling personal life, and
- be financially successful

As a life coach, I blend over 15 years of **personal, spiritual** and **business development tools, techniques** and **experience** to assist my clients in approaching their **work, relationships** and **life overall** in ways that bring them:

- increased energy
- richer and fuller relationships
- more fun and relaxation, and
- incredible financial success

Life Coaching is both a calling and my chosen profession. My passion is to support you to live the fully abundant life you are meant to live!

Experience has shown me that ...

- **when we** honor our own values
- **when we** embrace our own visions

Linda has an amazing knack of cutting to the heart of the matter. She has the capacity to hear what is going on "underneath" what appears to be the issue. Linda reminds me that I already know the answer. She also has an array of tools to help me see where the real issue lies and how to shift it. It is clear that Linda cares about what I want across the board. She is talented, creative and fun!

"Just trust yourself, then you will know how to live."
- Goethe

If you were to completely trust yourself, what would you be doing, now?
